The Fetzer Franklin Fund has been operated by the Fetzer Memorial Trust since its inception in 2005, with the support of the Fetzer Institute. The inspiration of this science program stemmed from the vision of John E. Fetzer, who wrote

“I feel that we are on the threshold of a new order where people will be seeking enlightened change. ... This will all come about with the infusion of spirituality into science. The Foundation’s eventual intent is to integrate the scientific process with spiritual mindedness ... A fundamental key to all this is to conduct this search with a proper line of scientific investigation.”

In the last ten years, Fetzer Franklin led breakthroughs in the following areas:

- 1 Relational Reality – the concept of the interconnection of all things at the quantum level now exists within mainstream physics academies in the world.
- 2 Metascience – the scientific study of the scientific method is a high priority for most major funding institutions in the world.
- 3 Advanced Protocols to study anomalous phenomena are becoming accepted. This could present an opportunity to advance mainstream investigation of extreme possibilities in the area of psi and subtle energy research. Psi, energy medicine, and subtle energy were dominant interests of John Fetzer. These revolutionary advanced protocols could help discern real effects from false positive effects which would catalyze substantial interest in these fields.
